

# I Will Remember You

## Leavers' Song 2022

I will remember you in the way you want me to  
But it's hard to come to terms right now.  
As this chapter ends and I think of all my friends  
I will smile, even if the tears fall down.

Oh I wish that we could go back to the start,  
But I know, that it's time to turn the pages.  
Yet I'm sure that I will see your face again  
And say,

*We are grateful for our time at Headlands  
All the memories and fun it brings  
We'll laugh about the time in all our lives  
Paper towels fixed everything.  
This school's part of our story  
But we know it's time to move on  
These moments stay with us  
Even when we're gone.*

I will remember you when I think about this school  
Though endings seem so hard somehow  
From the first day to our last, with each teacher and each class  
We have memories of laughing out loud.

From forest schools and sports day in the sun  
To cold and wet at Kielder Water  
I'll treasure all these chapters of my life  
Always

### *Chorus*

This isn't the end  
I wouldn't change a moment here, no not a single thing  
It is not goodbye  
But I can't believe it's o - ver

### *Chorus*

*The moments stay with us  
Even when we're gone*
